**Mental All Backs** - A spectator is shown a deck of cards which has been printed with only a back design on both sides. The spectator thinks of any card. The deck magically prints into a normal deck, however one card is missing. The spectator's thought up card is found in the wallet!

**Missing Think** - A packet of cards are shown to the spectator and a card is chosen, the card is then mixed back into the packet and the magician chooses a card. They match. The card is then put back into the packet and mixed by the spectator. The spectator deals the cards face up and the chosen card has disappeared. Only to be found in the magician's wallet!

**Money Warp** - A bank note is borrowed and signed by the spectator. A business card is introduced and examined. The note is placed into the business card and is magically wiped clean. The magician opens the wallet to get another bank note, only to find it's the spectator's signed bank note!
