
Bicycle Ultimate Universe Colored by Gamblers Warehouse

Gambler's Warehouse is proud to present Ultimate Universe playing cards. A conceptual expansion on the four symbols of Oriental mythology, Ultimate Universe takes star-born legends to new heights. Elements of 2D pixel art infused with striking color schemes make for a visual experience that is both complex and fun. Mythology and technology coalesce beautifully in Ultimate Universe.

Ultimate Universe is the work of artist Junichi Tsuneoka who has produced art for acts such as Mos Def and Mudhoney, and for the brand Nike. The card collector community is lucky to have this brilliant innovator stepping into our midst. Let's welcome Junichi by supporting his stellar new project-Ultimate Universe.

Ultimate Universe is printed on quality Bicycle® card stock with patented Air-Cushion™ finish, featuring original artwork across the entire deck. All courts, numbered cards, backs and tuck-boxes are completely custom designed.

"It's got that whole "8-bit" vibe to it without clubbing you over the head. Bright colors too-- this will really stand out!" - Don Boyer
