
The Mark Lewis Lecture by International Magic - DVD

Mark Lewis is one of the world's most prominent psychics, he's done thousands of readings and hit the headlines numerous times. On this DVD he gives an introduction into the world of 'Cold Reading'. He teaches the beginner how to do readings in both 'Chinese Numerology' & 'Palmistry' and even includes a powerful demonstration (and explanation) of 'Psychometry' - it looks incredible, yet you'll learn it in no time.

He begins with 'Chinese Numerology', which consists of one minute readings, these can be done anywhere and anytime - on the back of your business card or even a scrap of paper. They're incredibly useful in walk around gigs, the subject will never throw your card away and your work and stature will increase immensely.

For a longer reading (about 5 - 10 minutes) there's palmistry. The genuine methods are covered here, which use no trickery whatsoever! These readings are extremely accurate and do not get into the client's worries and troubles.

The DVD runs for over 2 hours and was recorded over two days while Mark presented a live demonstration and talk on the subject. It also contains PDFs of the printed notes given out at the talk.
