
Restored Credit (DVD and Gimmick) by David Regal - DVD

Imagine a flashy, quick-hitting trick that is always in your wallet, always ready to go, never needs a reset, and uses a unique gimmick to create the impression of advanced sleight of hand...

That's **Restored Credit**.

Restored Credit is a broken-and-restored credit card routine. It was explained in *Approaching Magic* and it is now realized with beautiful custom-made props.

I perform this trick perhaps more than any other, as there are so many opportunities to bring out a credit card in everyday life. But even if you don't carry credit cards, you can do this trick!

You will love the gimmick, as it creates a beautiful illusion and the trick practically works itself.

Comes complete with custom-made gimmicked credit card, a matching un-gimmicked card, and an instructional DVD.
