
Sankey/Sanders Sessions by Jay Sankey and Richard Sanders - DVD

In September of 2002, Jay Sankey and Richard Sanders began video corresponding, sending rough magic ideas and handlings back and forth between Toronto and Montreal. During the next year and a half they included many of the routines in their professional performances while continuing to refine the handlings and swap ideas. Then in January of 2004, Richard and Jay met in Montreal for a series of intense marathon sessions during which they stopped only to grab a shower, some pizza and buy more decks of cards. During the same 72-hour period they taped the material that makes up this very special double volume DVD.

The "Sankey/Sanders Sessions" features 21 astonishing close-up effects along with hilarious improvisations and though provoking interview segments. It is also a fascinating, timeless document of two master sleight-of-hand magicians who have been close friends for over twenty years.
