WHAT'S ON THE DVD?

- A 60 minute documentary on the **Art of Magic** featuring David Regal, Aaron Fisher, Dan & Dave, and WH.

- An in-depth 60 minute teaching session during which Wayne Houchin explains how to perform 5 of the effects that were featured in the documentary. You will learn:

TWISTING THE ACES - Wayne Houchin's handling of Dai Vernon's classic effect. The four aces magically turn face up one at a time. Clean, beautiful, and amazing.

FRENCH KISS - You ask someone to sign a playing card - the card is then folded up and placed in your spectator's mouth. You take and sign another card - which you then fold up and place in your mouth. Impossibly, the 2 folded up cards switch places. Your signed signed card is in the spectator's mouth and her card is in yours. Simple and powerful.

WH RING+STRING MYSTERY - A piece of string visually penetrates through a borrowed ring. New, unique, practical, and FUN.

MATCH BITE - A lit match is extinguished on your tongue. The magician then bites off the burnt end, chews it up, and spits it back onto the match. Impromptu and uses only one match.

CARBON PAPER - An incredibly powerful effect contributed to AOM by Jay Sankey. The back of a playing card is burned - your spectator FEELS the burn from that card travel through their hand and end up on a signed card that has

been between their hands for the entire effect... leaving the originally burnt card completely unharmed. Performed and taught by Wayne Houchin.

The documentary and instructional portions of this DVD attempt to capture a modern look at the **Art of Magic** through personal anecdotes, advice, and live performance. The interviews touch on everything from the presentation of magic to advice for beginners, and why magician's fail. The effects taught are practical and suitable for both beginners and the intermediate student. Welcome to **Art Of Magic**.
