

Alladin by Dominique Duvivier

Effect

With a few cards, you can accomplish amazing things! Take a small packet of cards and make them seem as if they are constantly changing without introducing any new cards to the packet! 4 ordinary cards become several different cards, four at a time. You must see it to believe it. From the mind of Dominique Duvivier, this effect will surely stun your audience.

Includes beautifully printed Bicycle cards, complete instructions and patter.
