

Cellini Art Of Street Performing Volume 3 - DVD

This video is the third volume of the "Cellini Presents the Art of Street Performing" series. I was inspired to create this video by the questions I am most frequently asked when performing or while lecturing. In this video you will experience live performances, and behind-the-scenes exposure, with tips from some of the top pros working on the streets today. We take you to Boston where you will learn why "funny means money." Through interviews with the performers, we hear their comments about the "Art", and learn from their years of experience on the streets. As with my first two videos in this series, I have brought you the best, and held nothing back.

Running Time Approximately 1hr 57min
