

International Dream Fly by Michael Afshin and Blacks Magic - DVD

A Startling New Professional Coin Routine

INTERNATIONAL DREAM FLY - is an entirely new and absolutely incredible routine by underground coin ninja Michael Afshin. In fact, it's so beautiful and so striking, that it's almost impossible to capture in text the visual mastery and magic you'll see in person.

Imagine what it would look like if a magician took three very different international coins-a copper coin, a Chinese coin, and an American half dollar- and made them slowly and visually vanish from one hand to the other, melting away into nothingness and then, one at a time they slowly and visually re-materialized back at his finger tips.

We can tell you that it would absolutely look like **Michael Afshin's INTERNATIONAL DREAM FLY**.

A brilliant, multi-phase reworking of the "three fly" coin plot with different performances views and instruction angles, you'll find this routine not only amazing to watch, but utterly simple to learn.

You get to chose from multiple angles, video only, annotated instruction, and graphically enhanced visual cues to help you fully grasp and assimilate this routine.

Stunning. In your face. Precise. And clean. Magic doesn't get more real than this. Now you can do it too. Routine only is fully-explained on the DVD. Gimmicked coins required and are sold separately.

This what real magic is supposed to look like.

Running Time Approximately 45min
