RECURRENCE: A coin vanishes and reappears several times as the mystery deepens with each inexplicable phase!

STAND-UP TWILIGHT: Jay's walk-around handling of Paul Harris' classic coin effect!

STRIKE THREE: Three coins vanish and reappear under a paper napkin in the most magical manner imaginable!

HOLY CROSS: Many magicians Jay has shown this brilliant handling to have said it is BETTER than "Mr. Clean Coins Across!"

COLLECTOR'S ITEM: A marked coin vanishes and reappears inside a coin collector's cardboard holder that is stapled shut!

Along with a detailed psychological analysis of many of the sleights and routines, Jay also discusses such essential subjects as body language, misdirection through scripting, managing spheres of focus, making the most of different performing environments, the ballet of coin magic and MORE!

"The spin of its subject-matter will at first overwhelm you with its dizzying array of options: productions, vanishes, transformations. But they are designed to revitalize the hackneyed techniques of yesteryear and they will. I recommend initially watching this DVD without sound. Let your eyes be ravished, and then watch it again and again until your nervous system adjusts to its visual velocity. If your technique doesn't improve, how you think about coin technique will."

"I love revolutionary coin magic 2.0! You have raised the bar so high. It's the gold standard baby. It's better than gold. It's quintuple platinum standards. It's inspiring, awesome, radical! It blows away every coin video out of the water. I'm jumping for joy. Hopefully there will be revolutionary coin magic 3 in my lifetime. I'm only praying for it."
