

Best Of The Bottoms (2 DVD Set) by Richard Turner - DVD

Many of the demonstrations open with a wash-riffle-riffle-strip-riffle and a cut or with a cut card placed on the bottom. Then the bottoms begin. You can now get around the cut card!

In this two-DVD set Richard (A Master Fifth Degree Black Belt) uses his 35 years of martial arts footage to talk about discipline and focus. He addresses the many speculations about his super, bat-like vision, questions like, "Is it true that he blocks with his head to protect his hands?"

The DVD concludes with the *LA Times* story describing how he took on ten fighters for his first black belt.

But the meat and potatoes are the hours in-between where this DVD will include Turner's See Saw Bottom Deal with his Clip Take. The See-Saw will be shown with cards face-up on the bottom... Close-up dealing top bottom top bottom... with Turner's hand resting dead still on the table... from above dealing the bottoms opening the hand before each deal to show the deck does not need to be framed... and from under a glass table to clearly see the below finger work.

You will also learn:
