

Bootlegs And B-Sides - Volume 1 by Sean Fields - DVD

For the first time ever on DVD, Sean Fields has assembled some serious card magic.

Bootlegs & B-Sides Vol.1 contains Sean's innovative and commercial approaches to classic card plots, such as *Twisting the Aces*, *Out of This World*, and *The Open Prediction*. *Ambition Impossible*, Sean's INCREDIBLY visual Ambitious Card sequence is worth the price of the DVD alone!

With his unique and laid back style, Sean teaches you each effect step by step. Don't expect to have your hand held though; it is assumed that you have a basic knowledge of card magic. Newbs, don't waste your time.

Effects include:

Ambition Impossible

The effect is a timeless classic; a selected card continuously rises to the top of the deck, after being placed in the middle. As a spectacular finale, the card is seen to slowly and visibly rise to the top!

Brain Tumor

Brainwave, on industrial strength speed!

Get Out

An impromptu approach to the *Out of This World* plot. The cards are mixed by a spectator, and subsequently separated by them as well. This is hot.

InconTWISTant

A twisting effect, with a killer finale inspired by *The Asher Twist*.

O.P.P.

Paul Curry, meet Sean Fields! *The Open Prediction* has never looked so good!

U.C.C.

An incredibly visual revelation of 2 selections!
