

Bootlegs and B-Sides - Volume 3 by Sean Fields - DVD

For the first time ever on DVD, Sean Fields has assembled some serious card magic.

Bootlegs & B-Sides Vol.3 contains Sean's innovative and commercial approaches to classic card plots, such as *The 2 Card Transpo*, *The Stop Trick* and *The Ambitious Card*. *Within*, Sean's vision of Card Warp, is worth the price of the DVD alone!

With his unique and laid back style, Sean teaches you each effect step by step. Don't expect to have your hand held though; it is assumed that you have a basic knowledge of card magic. Newbs, don't waste your time.

Effects include:

PaintShifter

2 cards VISIBLY change place, and then transform in the spectators hands! This is cool.

Sublime Switch

Sean's 4 for 4 has nailed some real names, and for the first time ever explained on film!

Stop

An interesting approach to the classic Stop Trick. In *Stop*, the spectator seems to be in complete control the entire time!

Wipe Me Down

Another killer ambitious card finale!

Within

A monstrous 'warp' effect, with a climax that your audiences WILL talk about!
