

Refill for Blank Phil Deck by Trevor Duffy - Tricks

Effect

A RE-FILL for the Blank Version of the Popular Phil Trick

We have had a huge response from magicians who wanted to be able to create their own version of the PHIL trick. Using the new and very clever 'PHIL' principle, this deck can be used as a tool to promote products or company names. It can be customised to fit in with a theme or someone special on the occasion of their birthday, for example.
