Emperor Chao - Pokerdeck

The 1st of the 2 new decks is the **Emperor edition** which is newly color printed on the front and bronze colored back with a layer of gold foil precisely added on top containing the CHAO pattern design.

The tuck box contains a meticulously extended design where it is embossed, and double foil stamped with bronze and gold.

There is a limited production of 3000 decks only on this edition. Never to be produced again. So, once they are sold out, they're gone.
