

## **My Sh\*t List by Diamond Jim Tyler**

The cover is made of a fluorescent yellow durable material. The inside is filled with twelve blank pages to collect people's or heckler's names. The booklet measures 3.5" tall and 2.5" wide to fit easily into a shirt pocket. This is something that I use often.

We all have a sh\*t list in our heads of people who we know to avoid or those who have wronged us. I don't recommend that anyone should make an actual sh\*t list. Forgiveness is healing. However, I'm an entertainer, a magician who uses comedy to create wonder, surprise, and laughter. For whatever reason seeing such a bold phrase on a tiny book is a funny thing. This is a great gag that never fails to get laughs.
