"I Want to See My Future"

-Narcissus

Predicting the future is a dangerous thing, so to verify a spectator's consent, you take a picture of her holding a card that reads "I want to see my future!" But when she looks at the photo, the words on the card have changed to reveal her future in a surprising, accurate and funny way.

"The Puppeteer"

- Pantheon

A charming story comes to life as the spectator becomes like the puppet in the story.

Monkey with a Knife (previously unreleased)

A card is chosen, lost in the deck, which is spread over a table and covered with a large paper. A spectator stabs through the paper - right through his card!

The **100th Monkey Tenth Anniversary Edition** includes 12 gimmicked postcards and downloadable video and written instructions plus over 100 gimmicked jpegs you can print up at home.

To people who already own the 100th Monkey: no need to buy this new version. If you signed up for updates, all the new bonus material is in the update dropbox already!
