

Puzzle Magic by Mago Flash

On this occasion I want to present this magic trick to you. It's called **Puzzle Magic**. It is a box that has a prediction inside, the prediction is the 3 of Diamond in puzzle form.

When the box is handed to the spectator, a very funny joke occurs. The spectator accidentally shakes the box and dismantles the prediction. The magician then asks the spectator to take a puzzle piece and then magically assembles the entire card in 1 second except for one missing piece. Finally, the piece that the assistant had left matches exactly with the missing piece of the puzzle.

It is a very visual effect, easy to reset. Ideal for card magic, comedy magic and parlor magic.
