

8 Ball Magic by Mechanics Industries - Pokerdeck

This isn't just a flipbook animated deck, it's a fully contained 8 ball magic prediction trick, with 3 magical reveals that grow in strength to the surprise kicker. There are multiple ways to handle this from beginner to advanced practitioners. You can also produce the final reveal from any location with an extra gaff included.

The **8 Ball Magic Playing Cards** not only feature stunning flipbook animation that doubles up as a marking system, but it also has connection functionality creating beautiful fans, spreads and cascades, visually enhancing all the moves you already know. Free magic video tutorial included with handlings for beginners and tips and hints for seasoned magicians. All aces and court cards are custom featuring 8 Ball motifs.

Prediction Gaff Cards

There are special gaffs included to create the 8 Ball Magic Trick. Shake for prediction, a reveal telling them what their card is, a reveal showing them where their card is and then a final kicker card for when they think they know what is going to happen! There is also an extra final reveal card allowing you to reveal the final location wherever you like, such as their back pocket or under their watch for example.

Custom Aces

All Aces are custom, featuring the flaming 8 ball for clubs, hearts and diamonds. The Ace of Spades has further 8 Ball and pool elements.

Custom Court Cards

Like roulette, craps and slots, the court cards are customized with 8 ball motifs, such as the 8 ball and pool cues. Illustrated to blend in with the classic artwork, along with stripped back borders these really complete the look of the deck while still being instantly recognizable for use in your magic routines.

Premium Quality

Printed on a thin, snappy stock makes it perfect for use in magic or flourishing. They spread like butter out of the box and have a metallic silver pantone for the

key highlight features.

Free Tutorials

Break your audience's minds with the powerful magic trick inbuilt into this deck! 2 versions taught and hints on cool things to explore using the gaffs. We teach a basic super easy to do version (that gets amazing reactions!) and then outline how to explore with final reveal locations and teach a signed card to spectators back pocket trick that uses the prediction gaffs to build and build this trick while misdirecting before the impossible finale. With easy-to-read markings, we have detailed instructions on how to read the backs. It's very clear and easy to determine value at a quick glimpse.
