

Flags by Mercy Me Magic

Magician tells his audience, "I'm going to cast a magical spell." He then lays out six cards, each with a flag from six different nations around the world. He then has someone announce any number from one to six. Using that number to locate a card, turning that card over to reveal an X on its reverse side. He then turns over all the cards spelling out the name of the country's flag that was randomly stopped at.

The cards are reproduced in three sizes, 2.5" x 4", for close-up, 3.25" x 5.25" for parlor, and 7.5" x 10.5" for stage.

This effect includes an instructional DVD, specially printed instructions and six specially printed **Flag** cards.
