

Jumbo Monte Stand (Red) by Jeki Yoo

Hi everyone, I'm Jeki Yoo, and I'm excited to introduce you to the **Jumbo Monte Stands!** Oh My!

Due to popular demand, I've created a larger version of my unique take on the classic Three Card Monte effect, made famous by Michael Skinner. This jumbo size is perfect for stage performances and parlor shows, yet it's still ideal for close-up magic.

What Makes Jumbo Monte Stands Special?

- Simple and Deceptive: The included card stands allow you to perform this captivating routine with zero sleights!
- Clean Display: You can fully show the front and back of the cards throughout the routine, highlighting each phase for maximum impact.
- Easy to Use: Ready to go right out of the box with everything you need, including 3 gimmick cards, 3 gimmick stands, and a tutorial with Jeki Yoo.
- Versatile Performance: Performable while standing, and perfect for any audience size.
- Social Media Success: It's been a hit on my social media, and I know your audience will love it too!
