

Stabbed & Shot 2 by Bill Abbott

Direct from Bill Abbott's professional repertoire **Stabbed & Shot** is a killer card stab with a shot glass production that comes out of nowhere!

The Routine

You have a card is selected from a shuffled deck - signed - returned and deck is shuffled by a spectator. An empty paper bag is examined, and you toss the deck inside. A spectator is asked to shake the bag to mix the cards even further to make finding the chosen card even more impossible. A knife is produced and is stabbed into (and through!) the bag. Violently the knife is ripped from the bag and a single card is impaled on the end of the blade...it is the spectators signed selection!

Just when the audience applause has died down the performer reaches into the bag and produces a large shot glass filled to the brim with liquid!

Stabbed & Shot Considerations:

- Perform Stabbed & Shot in short sleeves.
