

## TIC TAC TOE PRO V2 STAGE by Bond Lee and Kaifu Wang

As professional magicians, we always seek effects that are magical, practical, and appealing. This is my secret weapon, our latest improved version, **Tic Tac Toe Pro 2**.

A classic paper and pencil game between two players has now turned into an interactive game between the magician and audience. The audience can decide freely, but amazingly the magician will always be able to predict the future. We provided twelve design templates for you, and you can even customize your own design.

Every component can be disassembled and fits inside our durable ABS case. Now you can perform this magical effect just like you saw on TV & social media. Magical, practical, powerful, this is Tic Tac Toe Pro 2.
