

## **Wonder Orchestra 2.0 (Violin & Piano) by Kink of Magic**

### **Wonder Orchestra 2.0 (Piano x Violin)**

**The latest in the series of the hit device that has sold more than 10,000 units worldwide in the "Handy Sound", "Ultimate Sound", and "Wonder Orchestra" series! An excellent tool that can be used for a wide range of occasions, such as close-ups, street, parlors, birthday parties, etc.**

#### **What has evolved?**

- **2 types of sound sources (Piano x Violin) are available on 1 device! (Up until now, there was only one instrument per device, but now two instruments can be played per device.)**
- **No more button batteries! (Wonder Orchestra 2.0 is USB rechargeable: it can be used up to about 250 times on one full charge.)**
- **Compact size. (It is much smaller than the previous version.)**
- **The buttons are now easier to press. (Sound can be produced with a light touch.)**
- **One sound source has a variety of sounds included. (Single sounds, classical songs, happy birthday song, and several others.)**

**Borrow a piece of paper and a pen and have the spectator to write down a set of keys on a piano. You can suddenly start playing piano notes from the paper.**

**Begin playing a classical violin piece with a borrowed fork or chopsticks. In the end, there is nothing in your hand.**

**A very small sound device that can be easily used for magic!**
