

Passport to Gaff Decks by Phill Smith and DMC - Buch - Markiertes Kartenspiel

The **Passport to ELITES Pro Gaffs** is a compact book covering 6 original, exciting effects using the incredible DMC ELITES Pro Gaffs deck, from the repertoire of creators Drummond Money-Coutts and Phill Smith. Pocket sized, in a unique Passport format, the book details the presentation and handling for each effect. It combines usage of the DMC ELITES marked deck with the new DMC ELITES Pro Gaffs deck (each deck available separately), to create powerful hard-hitting moments of incredible magic.

The book contains the following jaw-dropping effects:

Escapologist: Using the unique escapologist cards from the Pro Gaffs deck, a tiny escape artist disappears from a cage and appears, as if by magic, on the face of a spectator's chosen card, whilst it is still in their hand.

Octomonte: Using a simple deceptive move, you invisibly and impossibly switch out four Kings for four Aces, right in the spectator's hand.

Hanging Cards: A huge closer from DMC's professional performances, Hanging Cards is an organic, easy-to-do routine that ends with an impossible prediction.

Dream Card: A freely named card is shown to be the only card in the deck with a different colored back - except of course that that's impossible, and it was always just a dream...

Dollar Down Monte: An introduction to performing money monte routines using the unique coin monte cards in the Gaffs Pro deck.

Handsfree Kit: A spectator finds his own freely chosen card from a deck that they shuffled and cut.

The book also includes a resources section with references for other hard-hitting pieces with the Pro Gaffs deck, and an introduction to how to use the cards themselves. The **Passport to ELITES Pro Gaffs** is an essential addition to the arsenal of any performer using the ELITES Pro Gaffs.
