

## **ACROBATIC FISH by Zen Magic**

You start with a large fish hanging from a rope. You proceed to make the fish jump from one end of the rod to the other. Finally, your audience comes up with the obvious solution, but you're one step ahead and the fish magically jumps to the middle rope.

As a surprise ending, you pick up your bow, and when you look back at the stick, there are now THREE FISH dangling, one from each string!

The fish and rod look real and of better quality.
