

The Magi's Mentor by Erick Olson

The **Magi** shows a set of ESP cards. The subject selects a card face down (free choice) and the Magi gives an audience member a business card. The business card is from the Magi's "mentor". The audience member uses their phone to call the **Magi's Mentor**. The phone rings...and is answered by the mentor (sometimes live or sometimes a recording). The **Magi's Mentor** tells the subject what card they selected. The subject turns over their chosen card, and it matches your mentor's vision.

- Easy to perform.
- Great reactions.
- No apps!
