

## **Killer OMG by Paul Gordon**

**Paul Gordon's "Classic" Killer OMG is back!**

**Back & better in 2024. Better artwork and better card stock. It's a heck of a worker because it's pretty easy, very powerful, great kickers and not only is it examinable it has an instant reset! What more could you want!? It has been a big hit since 2004 and it promises to be a bigger hit from now on. So, what happens. Well: Four blue-backed Aces twist (turn face up) one by one. A funny eye-test chart appears, and the Aces change to four different backs. Funny and fun!**
