

Bicycle Blur Red (Mandolin Back) by Mathieu Bich and Garrett Thomas

Transform your audience's perception with **Blur** - an illusion that will have your spectators running straight to their optometrists!

Unlike typical tricks that leave spectators questioning "how did you do that?" **Blur** will have them wondering "*WHAT did you do to me?!*"

Crafted by the ingenious minds of Mathieu Bich and Garrett Thomas, **Blur** allows you to manipulate your spectator's vision in an unforgettable way. Spread and show a full deck of cards, let your spectator select one, and then watch as their chosen card becomes blurry and indistinguishable at your command.

As if that's not enough, you can make the entire deck, except their selection, turn completely out of focus - leaving your spectators with an experience beyond words and vision.

Utilize this tool to directly alter their vision or craft a dual reality to give your spectator's a uniquely personal experience that only they would understand. Or, utilize one of the 12+ routines included that covers multiple ways to utilize this insanely versatile tool!

But this is just the tip of a very blurry ice burg:

- Nearly 3 hours of in-depth tutorials by two of the most creative minds in magic.
- Versatile tool - **Blur** is more than just a trick; it's a multifunctional tool that opens up countless possibilities. We've included over a dozen routines to kickstart your journey!
- Skill Range - Tailored for both beginners and advanced magicians.
- Cards printed on high-quality USPCC stock, ensuring durability and performance.
- Craft unforgettable moments with a trick that delivers visual surprises.

Welcome to **Blur**

- where clarity has never been so elusive!
