

WONDER WALLET EURO by Astor

The **Wonder Wallet** is handmade from high quality German plastic material, this guaranties the long durability of it.

The performer takes out from his pocket a wallet which has a rectangle hole in the middle. Just a small shake and a real banknote appears faster than a blink of an eye in the inside of the wallet. The appeared banknote can be use for another banknote effect, or doing it impromptu in a shop, bar, pub... for paying.
