

# The Dog by TCC Magic & Harry Yang

## The Dog - Perfect Interaction with Your Audience

Harry Yang has long been interested in incorporating balloon animals into magical performances. After years of exploration, he created The Dog, a unique and interactive effect perfect for parties and kid shows.

The spectator freely selects two cards and returns them to the deck. You twist a balloon into a small dog, throw the cards and the balloon dog into a paper bag, and shake it. When you take out the balloon dog, it finds one of the cards with its "paws." As everyone wonders where the second card is, you seemingly pull off the dog's "tail," shake it, and reveal the second card is inside the tail.

Enjoy the perfect blend of balloon artistry and magic with The Dog!
