

Windmill Flag (Standard Edition) Tarot Deck

Mythology is a realm of fantastical beauty and imagination. Mythology is not just a form but a call to the soul. The **Windmill Flag** offers a unique visual feast, embarking on a distinctive journey through mythological tales. The enigmatic allure of French exotic mythology and the fantastical elements of folklore allow one to discover oneself in the world of gods and heroes. It represents mythological belief, spiritual symbols, and cultural heritage.

The tuck box features a misty gray-brown color scheme, enhanced with UV coating and metallic ink. The foggy, elusive quality adds a layer of mysterious allure to the mythological tales, hinting at the ancient and profound history that lies beneath. In the center of the box, a mythical bird strolls, symbolizing ancient deities. It is said that the divine bird can hear the wind across ninety thousand miles and occasionally sing. This mythical bird carries ancient stories from afar, bringing messages from a distant past.

The card back features a mysterious pattern in the style of ancient Celtic knots. Western traditions believe that Celtic knot designs were used to protect humans from the harm of the evil eye. The intricate patterns confuse approaching demons, thereby diminishing their malevolent power. Symbolizing strength, wisdom, and immortality, these knots offer us the most sincere protection.
