

Black Roses Altrosa - Pokerdeck

LIMITED EDITION: Only 2900 printed! Will NOT be reprinted.

Color isn't just important in fashion. The color of your deck is a statement and it reflects your personality. You have plenty of possibilities today, but the Black Roses Altrosa Playing Cards stands out with its *dusky pink color*. Gentle and yet meaningful. Not too fancy, to distract the spectator from your routine. But an eye-catcher with which you are fully in line with the trend.

Daniel Schneider - who began designing the Black Roses Altrosa Playing Cards right after he finished the 7th edition of the Orbit deck - also *redesigned the face cards* in this deck. No two Black Roses decks look alike, so you get more than just another colored deck.

The Black Roses Altrosa Edition is the fifth deck in the Black Roses series.
