

Split Hole (Red) by Chiam Yu Sheng and JT Magic

Split Hole

is a novelty visual effect created by Chiam Yu Sheng from Singapore.

A spectator selects a card and signs their name on it. A hole then appears on the card. The hole splits into two halves, and the two half-holes are restored. Finally, the hole vanishes, and the magician can give the signed card to the spectator as a souvenir.

Advantages:

- **Highly visual and practical, perfect for performing in front of live audiences.**
- **Super easy to do.**
- **The gimmick card is durable.**
