

## Final Dot by Andrew

Wow another fantastically crafted gimmick **Final Dot by Andrew** that allows you to exhibit a stunning visual effect. We teach you two different routines in the included online instruction video: You show a deck and let a spectator choose a card, remember it and put it back in the deck. Next, shuffle the cards. Search for the card and take it out of the deck, but when you show it, it turns out that it is not the right card. You say that there is only one solution, using magic ink. Take a marker and draw a black dot on the back of the card. Now ask the spectators to look at the card and suddenly the drawn dot starts to move across the card. A little later, the black dot also seems to reveal the chosen playing card in a very visual way until the name of the card is written in black ink written on the card!
