

Chroma Color-Changing Knives Set by TCC Magic

Chroma Color-Changing Knives Set

includes five exquisite penknives that create a range of highly interactive and visually stunning effects with simple sleight of hand.

Color Changing Knives is a cherished classic among professional magicians. These everyday penknives offer a repertoire of effects, relying on simple yet deceptive principles. With no need for complex sleight of hand, it's highly interactive and perfect for stand-up performances without requiring a table.

In the Chroma Color-Changing Knives Set, we've introduced two gaffed knives in addition to the basic configuration, to enhance the variety of effects:

- One knife features a half-black and half-white design, creating the illusion of a color change midway through.
- The other knife has four colors on one side: black, blue, white, and red, adding versatility to your routine. It can serve as a captivating finale or be used to force the color black at the beginning, instantly transforming into a completely black knife.

Included in the set is an exquisite black velvet bag for convenient storage and transportation.

Features

- Series of visual transportation and color-changing effects with simple sleight of hand.
- Highly interactive routine, including effects happening in the spectator's hand.
- Additional gaffed knives offer more flexibility to expand your routine.
- Easy to carry and perfect for stand-up performances without a table.
