

The Quantum Pad by TCC Magic & Mental Tom

The **Quantum Pad** is designed to seamlessly integrate into your routines, concealing discrepancies or gaps. It boasts a sliding track mechanism, a quiet motor, and precise lifting components, ensuring smooth and silent operation. The mechanical system is highly stable, with a bidirectional remote control that allows for precise handling.

This wooden close-up pad goes beyond basic effects like appearances, transformations, or transpositions. It is perfect for integrating into your tabletop routines, allowing for repeated use and customized magic that reflects your unique style.
