

Verum Videre 2023 Edition (Silver) by Kings Wild Project Inc.

Introducing the **2023 Kings Wild Verum Videre**. The Latin phrase Verum Videre means "See the Truth".

Our 2023 Verum Videre brings all the beautiful intricate details of the original Verum Videre deck and combines it with the stunning court cards from the Invocation series. With this version of Verum Videre, we have added vibrant, elegant foiling to both the backs and faces of each and every card, creating a true masterpiece for all the truth seekers.

We are introducing 6 different versions of the 2023 Verum Videre deck.

The standard editions, available in both silver and gold, feature a stunning embossed tuck case with coordinating foil colors. The **silver standard features silver foiled cards**, and the gold standard features gold foiled cards.

The gilded editions feature the same details as the standard editions, but with the addition of brilliant coordinating gilding to the edges of the decks. The gilded edition also features a unique die-cut tuck case, showcasing the all-seeing eye on the deck.

The legacy editions feature a laser engraved black walnut slipcase and the gilded editions of each responding edition, gold and silver Legacy. The legacy editions are numbered 001/###, we will only be producing as many as we sell! The deck in the legacy edition features the same die-cut tuck and gilding as the gilded edition.
