

## Wonder wallet by Astor

A quick visual where you produce a real bill you can give away as a gift or use for a magic trick.

You display a plastic folder with a square hole in the middle which you can see through. With a quick shake a real bill appears in the hole!

You turn the folder over and show the bill through three windows. You can then cleanly pull out the bill and give it away.

- Comes with a specially manufactured plastic case (wallet) and access to online instructions.
- Made for US bills and papers that are around that size. Use your own money.
- Manufactured by Astor Magic.
