

Lota Vase - Aluminum

An elegant metal vase is displayed full of water, which is poured out into another container. The vase is shown unmistakably empty, yet within a few instants it is again full of water!

The magician performs a few other effects, and when he goes back to the vase, there's still water in it.

This can go on for many times, creating a running gag that will have your audience astounded.

- Height: 17 cm (6,7 inches).
- Well crafted in polished aluminum.
