

Lota Vase - Aluminum - Deluxe

An elegant metal vase is displayed full of water, which is poured out into another container. The vase is shown unmistakably empty, yet within a few minutes it is again full of water!

The magician performs a few other effects, and when he goes back to the vase, there's still water in it.

This can go on for many times, creating a running gag that will have your audience astounded.

- Well crafted in polished aluminum.
- Supplied in a nice box.
- Height: 18,5 cm - 7,3 inches.
