

Vanishing Milk Pro by Bazar De Magia (supplied with OOM milk)

Just imagine: a glass of milk vanishes completely. Yes: the milk disappears and also does the glass. And - unbelievably - everything happens before the very eyes of the audience !

It is a trick of the kind known as "Sucker trick": when presenting it, you may perform some comedy by pretending to explain its secret to the audience. Then, when the public thinks it knows where the glass is hidden, you perform it once again but, this time, the glass and the milk can be found nowhere: now them both have really and completely disappeared !

Known as Backstage, this version of the trick improves and is superior to all known versions. Its elaboration is very well cared after. The milk used in its performance is real, or look as if it was. The glass is not a painted one but was especially developed and manufactured for the trick: when it moves, the public sees the milk in it moving in a real way. The small "stage" is metal made and the aluminium made tube are both painted on fire, which ensures them an endless duration. Besides that, this kind of construction makes them very easy to handle. The clothe curtain adheres to the stage by means of magnet bars hidden and sewn in it (no velcro is used). This is much more than just a simple trick: it is a valuable act of magic. Ideal for any kind of audience - adults or children - it is very easy to perform, requiring no magician expertise.

- Bazar De Magia quality.
- Supplied, is also a bottle of "Fake Milk - Concentrated Milk - Super OOM" a liquid that will allow you to make fake milk.
