

## Unfiltered Magazine

Are you looking for a fun, direct and current effect with which to open your show? Adrián Carratalá shares for the first time what has been his opening effect for the last 12 years!

With a magical pass, the magician is able to remove all the Photoshop, Artificial Intelligence and filters of a fashion magazine to show what the models really look like.

This super easy-to-do effect is perfect as an opening or interlude in your show. It is magical, current, and will make the audience laugh. Many magicians have defined it as the "Coloring Book" of the 21st century. Made with top quality materials and matte laminated covers for greater durability. A4 format.
