

Tunnel of wonders

The magician shows a decorated panel. He opens it to create a rectangular tube and shows that inside there is a silk that he removes. Then he flattens the tube and when he opens it again inside there will be a silk with a different colour!

- Brilliant effect to go with any routine with silks. It can also be used to change the colour of a silk.
- We supply two silks of cm 20x20. The panel is made of coloured cardboard that measures, flat, cm 21,5 for side. Open cm 21 (l) x 11 (h) x 11 (w).
