

## Instant Transposition

The magician takes from a deck the 4 kings and leaves them in full view, now a spectator is invited to freely choose a card and sign it.

The signed card is placed face down between the 2 red kings, while the 2 black kings are momentarily put aside.

The magician picks up the 2 kings with the spectator's card in the middle and with a simple magic gesture, the spectator's card instantly disappears only to be found between the 2 black kings previously set aside. All is performed magically visibly without any suspicious move!

Super easy and super visual!

- The gimmick you will receive can not be chosen, and will be with a court card.
- In addition to the gimmick, you will also receive the video instructions download (they are not spoken).
- To perform the effect you will need a normal red back poker size Bicycle deck (not included).
