

The Ghost Light - Color Changing - Super Strong (pair)

Beautiful version that allows you to show 3 different colored lights at your fingertips: red, green and blue!

With this gimmick you will enchant the audience. Your fingers will magically play with luminous spheres that will dance around you, appearing and disappearing everywhere!

It is an effect that conveys true poetry in the eyes of the spectators and can be presented in a number of ways.

- Show your empty hands and pretend to grab something in the air: a bright light will appear at your fingertips. Put it in your pocket and then grab many more. You can repeat the effect as much as you like, fascinating the audience!
- Grab the lights and hide them in your other hand, but when you open it they will be gone!
- You can magically pass a light from one hand to the other, despite the fact that the hands are far apart: the audience will see the light in one hand disappear and reappear in the other.

And much, much more!

- Easy to do, it will give your performance a special charm.
- 2 Ghost Lights are supplied. Each allows the appearance of the three colored lights. They are recharged with a USB cable provided.
- The lights are super powerful, and are always under your control. As the led are very strong, the effect will work well even in daylight.
