

## Tenyo - Blink Blank

The cash envelope of your dreams!

With this amazing envelope, making money instantly appear will be a snap! Based on a principle created by Tran Dang Ninh, Tenyo has further developed this prop so it's easy to prepare, and even easier to perform. The envelope is built with a durable resin-based material. Pop it into your pocket or bag and you will be ready to amaze people at any time.

1. Display an empty envelope with a window cut-out.
2. Snap your fingers, and the envelope instantly becomes filled with cash!
3. The five bills (works also with Euros) are, of course, real money.
