

Super Cube by Tora Magic

The magician shows a red die and fits a frame on top of it. He covers all with a lid and as he removes the lid, magically, the die will have turned into eight little red dice!

The audience won't believe their eyes!!

- The effect can also be performed by transforming the die into a red silk, as seen in the video.
- The two 20x20 cm silks and the disappearing gimmick are not supplied, but can be purchased separately.
