

Star Wars Playing Cards - Silver Special Edition - Light Side

Since 1977, Star Wars™ has been a pop culture phenomenon. Today, theory11 is proud to present an all-new special edition of Star Wars: Light Side and Dark Side Playing Cards.

Join Jedi Knights, climb aboard the Millennium Falcon, and become a Rebel or Resistance hero. The Light Side deck features Luke Skywalker's lightsaber, R2-D2, and fighters from the Rebel fleet.

"May the Force be with you."

The outer packaging is breathtaking, with striking, vibrant silver foil - mixed with clear, reflective foil that creates the illusion of the Millennium Falcon cockpit window.

Both decks have the same set of 12 court cards, with iconic light side and dark side characters. Each card features detailed depictions of these iconic characters. On the light side: Rey, Leia Organa, Han Solo, Luke Skywalker, and more.

Across the white back design, catch countless details - from the top of R2-D2 to the Rebel Alliance symbol. In the center, a repeating pattern of X-wing starfighters supports two lightsabers on each side edge.
