

## Square Circle - Oriental

The magician shows the audience a parallelepiped and a tube, both empty. Immediately afterwards he makes from them appear handkerchiefs, silk strips and more!

Great for stage or parlour performances!

- Beautiful version, with a great look also for oriental style performances.
- The parallelepiped is made of wood, the tube and bars are metal. The production material is not included.
- The external parallelepiped (also considering the shaped front) measures 16 (6,29" x 23.3 (9,17") x 13.2 (5,19") cm. The tube has a diameter of 10.6 cm (4,17") and is 20 cm (7,87") high.
